If you feel you should have been represented in this catalogue, please contact us at the Centre for the Book.

The research and compilation was made possible by funding from the MAPPP Seta  
and the production of the catalogue was funded by Nasou Via Afrika.

This catalogue came about as a result of the work of the Community Publishing Project, which is a joint project between  
NB Publishers, Nasou Via Afrika and the Centre for the Book, which aims to enable writers to publish their own work and to  
make it easier for those who want to publish their own work to do so.

#### Disclaimer

No small publishers have been censored in the compiling of this catalogue. *The Catalogue* provides a forum for lively,  
entertaining, quirky and controversial debate about small publishing. While the views expressed are not the official views of  
the Centre for the Book, we are delighted that contributors have expressed themselves so freely.
